#### Overview
This year’s annual Year 6 School Camp will be at Conway Beach, located in the Whitsundays, about 35kms South of Airlie Beach and will include a visit to a nearby mangrove environment and a day trip to the Great Barrier Reef. Conway Beach Tourist Park provides a safe but challenging outdoor venue for students to develop skills in areas such as leadership, team work, personal development and outdoor hiking, camping, snorkelling and mangrove and reef education.

#### Learning and Outdoor Educational Outcomes
The aims of the camp are to introduce students to hiking and camping, and to develop their organisational ability both personally and in groups. The activities are designed so that each student can achieve individually, but also realise the importance of co-operative group work. The shared experiences and challenges will have a positive effect on students and on rapport within the year group.

#### Example Activities from Camp
- Camping
- Hiking
- Make and fly a kite
- Make your own pizza
- Explore the Mangroves
- Explore part of the Great Barrier Reef
- Snorkelling
- Have fun with friends!
