MODEL UNITED NATIONS FORUM
YEARS 9-12

Aims
With over 1500 students competing around Australia in Model United Nations Forum, the Model United Nations Forum is a great way to be introduced to the nation’s largest schools debating competition. The focus of the Model United Nations is on youth issues, social justice, foreign affairs, politics and leadership.
Students do not need any experience to participate – they just need to be prepared to be global citizens and to start thinking of a world beyond the confines of their school and hometown.
Students will be supervised by teachers. The MUN will be facilitated by visiting UN Youth Leaders.
